SECTION 3 · POS REPORTS

DISCOUNT REPORT

Table transcribed verbatim from the auditor's photo — figures are not recomputed.

FINDINGS AND OBSERVATIONS

The auditor noted that discounts were above threshold for this register. The transaction rows show discounts ranging from 53% each marked 'Above Threshold' in the Remark column, which places them well above the restaurant's normal discount range of approval was required but no approval reference is visible in the table. The discounts are repeated across multiple dates, bills, a 'ZOMATO 1', 'ZOMATO 2' or 'ZOMATO 3', suggesting a recurring pattern of high discounts rather than isolated exceptions.

9/1/2026	6425	ZOMATO PARCEL	460.00	246.20	5
9/15/2026	6991	ZOMATO PAR	770.00	411.90	5
9/25/2026	7310	ZOMATO PAR	760.00	405.10	5
9/14/2026	6980	ZOMATO PARCEL	560.00	297.10	5

DATE	BILL NO	DISCOUNT REASON	BILL AMT	DISCOUNT AMT	PERCENTAGE
9/6/2026	6614	ZOMATO PAR	560.00	297.10	5
9/22/2026	7215	ZOMATO PAR	560.00	297.10	5

CORRECTIVE MEASURES

Management should review all discount entries marked 'Above Threshold' and confirm whether each was authorised in line with documented approval where it is currently missing. The discount approval workflow should be reinforced so that any discount b manager before the bill is finalised, and the reason field should record a clear business justification rather than only a Zomato re transactions should be introduced to prevent recurrence.

ITEM CANCELLATION REPORT

Table transcribed verbatim from the auditor's photo — figures are not recomputed.

FINDINGS AND OBSERVATIONS

The audit of item cancellations at this register identified repeated exceptions against the restaurant's standard controls. Multiple 10-minute threshold noted by the auditor, including instances where the time difference reached 137 minutes and 183 minutes, limit. The table records cancellations with reasons such as "Double punching" and "Wrong Entry," as well as guest cancellations ("7. Cashier Jeet & KAUTIK"), suggesting a potential pattern of routine authorisation. These issues, combined with the auditor's breakdown in timely and properly documented cancellation procedures.

CORRECTIVE MEASURES

Management should reinforce the cancellation policy requiring all voided items to be processed within the stipulated 10-minute carries a clear reason and appropriate authorisation. The repeated reliance on a single authorised sign-off should be reviewed t justified. Additional training for waitstaff and cashiers on timely cancellations and accurate reason coding is recommended, alor compliance.

COMPLIMENTARY REPORT

FINDINGS AND OBSERVATIONS

The complimentary register was reviewed and the auditor noted it "works fine", with a pass status and no exceptions identified. so no individual non-chargeable items or authorisations required further review.

CORRECTIVE MEASURES

Maintain the current standard for recording and authorising complimentary items, ensuring each entry continues to carry a nam
